Mobilya ürünlerinde genişlik, derinlik ve yükseklik ölçülerini dikkatle incelemeniz gerekmektedir. Ürünün teslimat anında geçirileceği (merdiven başluğu, kapı, koridor vb.) ve montajının yapılacağı yerlerin ürün ölçüleri ile uyumuna bakmanızı tavsiye ederiz.

You should carefully examine the width,depth and height measurements of furniture products. The product will be transferred at the time of delivery (stairwell, door, corridor, etc.) and we recommend that you look at the compatibility of the places where the installation will be made with the product dimensions.

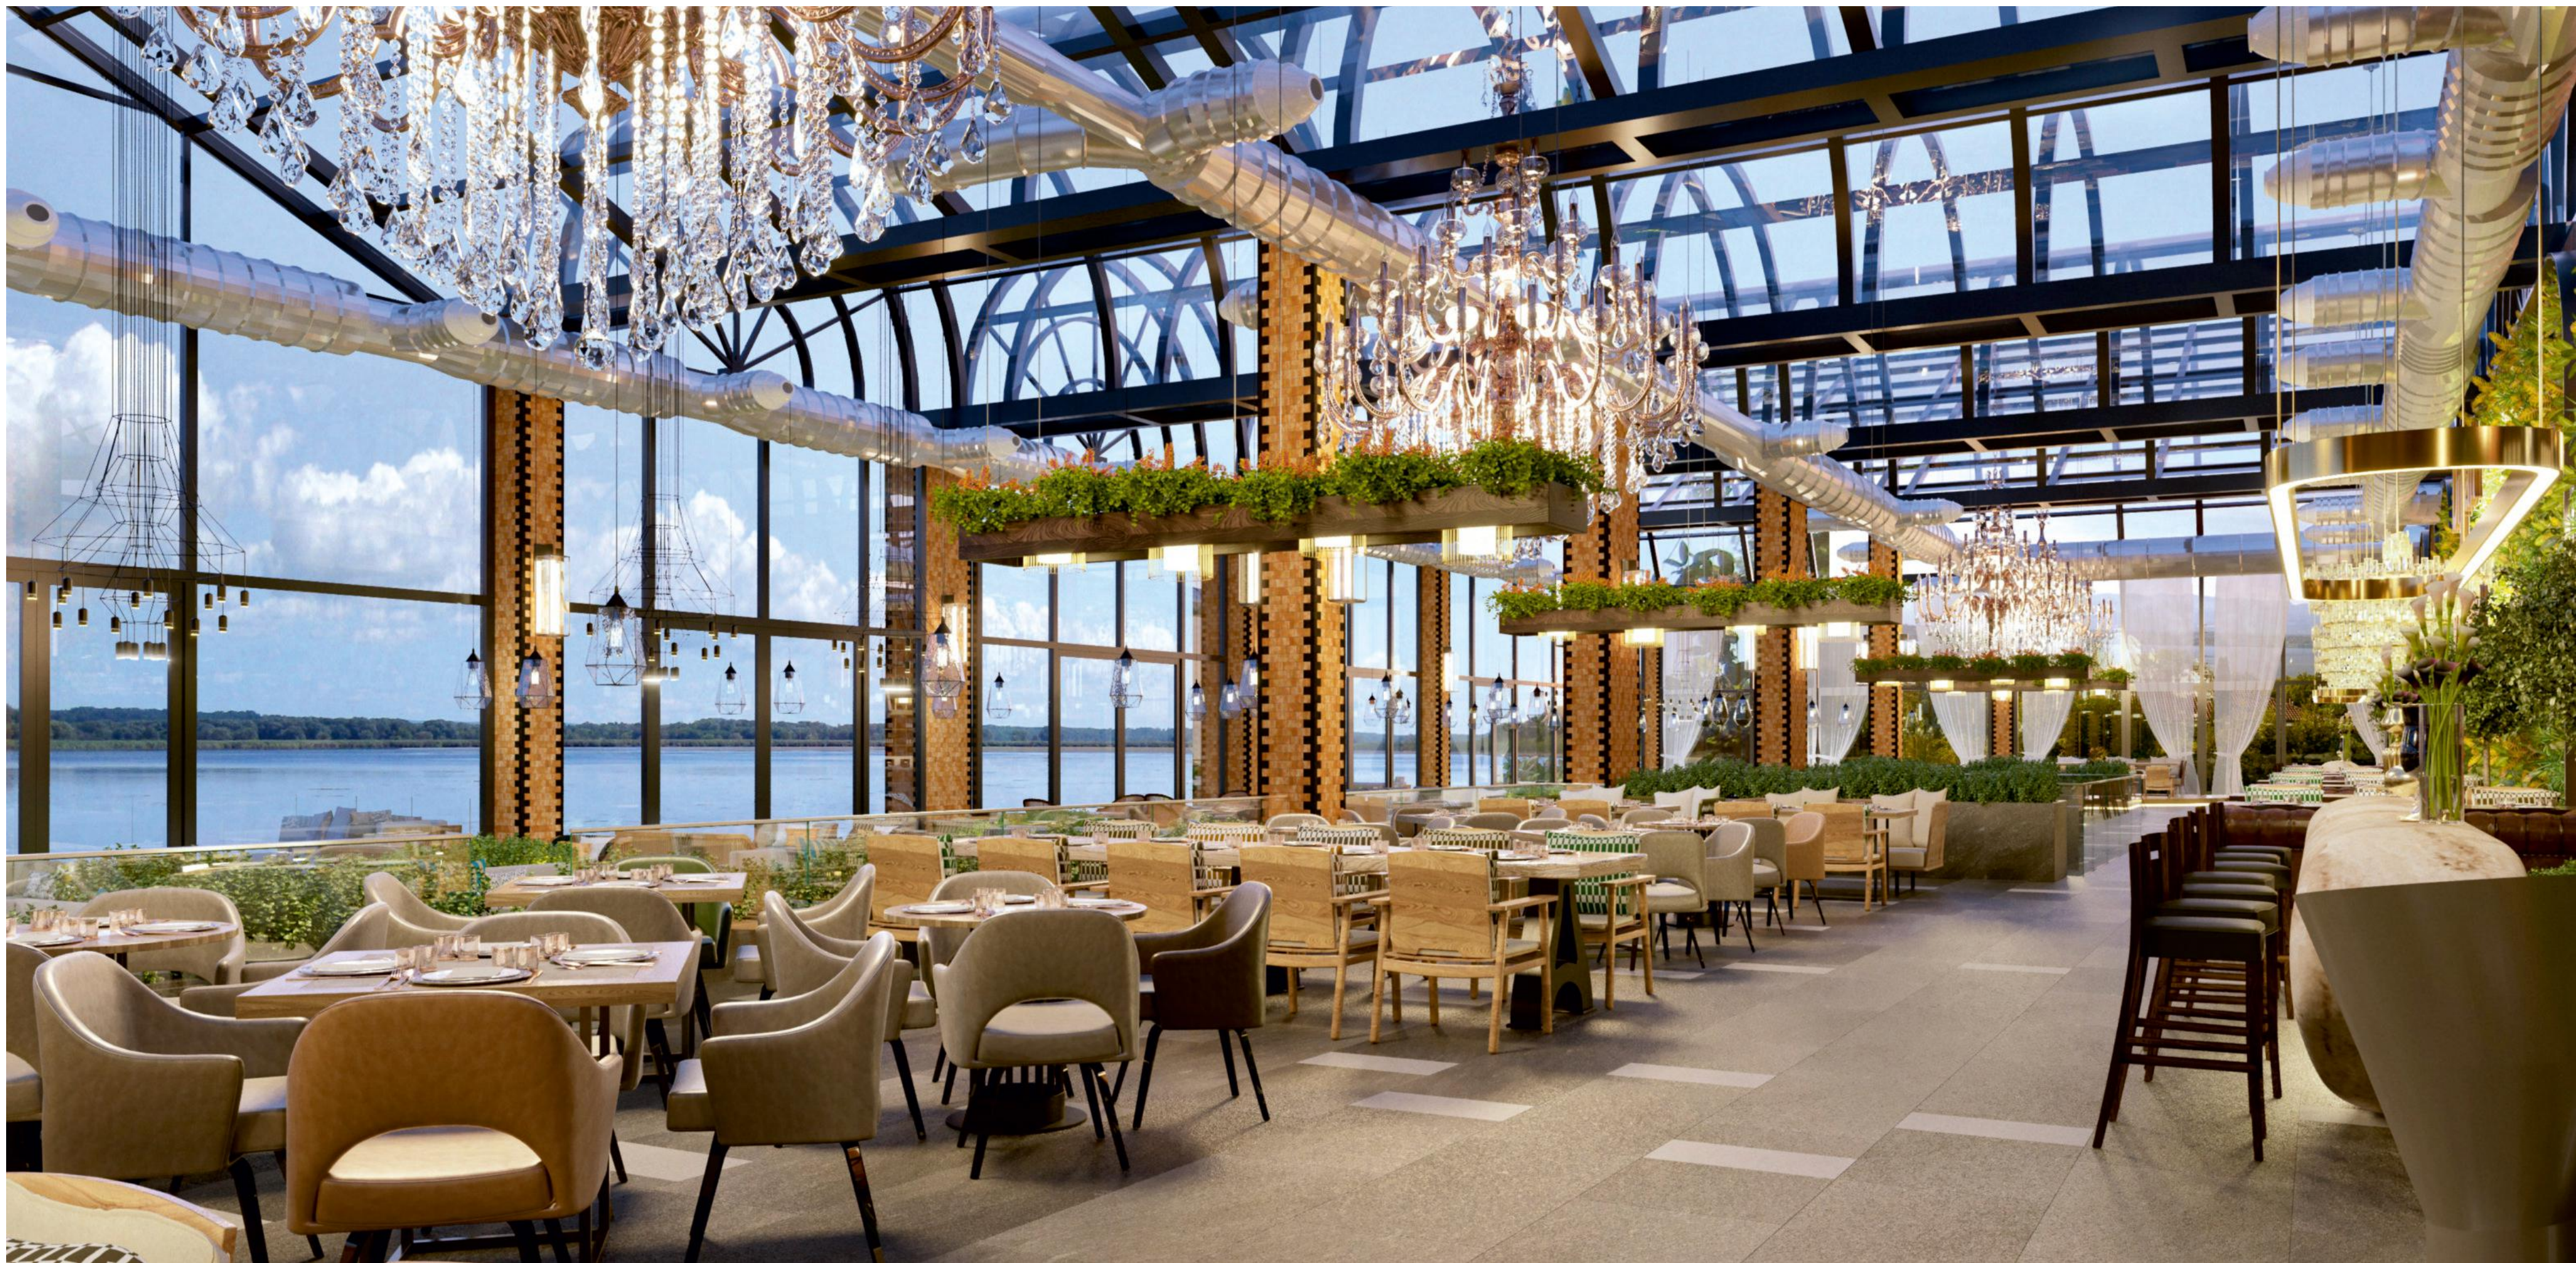

Mobilya ürün çekimlerinde ürünün ideal rengini yansıtacak şekilde çekimler yapılmaya dikkat edilmiştir. Fotoğraf çekimlerinde, çekim ışığından kaynaklı kumaş renk farklılıkları görülebilmektedir.

In furniture product shots, attention has been paid to making shots to reflect the ideal color of the product. In photo shoots, fabric color differences caused by shooting light can be seen.
